✓ **ClearlyU Bible** – This compact NIV Bible has a durable see-through cover to encourage kids to make their Bible their own. They can express their faith and personality by choosing one of the inserts that come with the Bible. Or they can use one of the additional inserts or templates for creating your own design available online. A video on the web site shows you how it works. ClearlyU Bibles are published by Zondervan and cost \$19.99. Check it out at www.clearlyubible.com.

✓ **My Learn-to-Pray Bible** – I've been looking for this Bible, which is especially designed for kids birth through 3-years-old. This board book is part of Karyn Henley's Playsong collection and includes 12 Bible stories with a sing-along CD of songs. The bright colored drawings and short rhyming stories are perfect for very young attention spans. It wasn't available in any of the Christian book stores I could find but it can be purchased online at www.amazon.com for \$11.04 plus shipping.
